Subject: Dimock maps

Vicky,

In case any of this is helpful for tomorrow, I pulled together some wider view maps and numbers, in addition to Jim's awesome detailed maps. I will plan on using his maps to zoom around in tomorrow, but I wanted to have some wider views for context, and also some snapshots, just on the off chance that the maps don't work as we expect them to (but I am sure they will!).

Check out G:\3WP20\catanese\Dimock and you'll see the images as well as a powerpoint for easy viewing.

See you tomorrow!

-Christina
